Comments on individual categories when compared to the previous corresponding period are:

Net interest income increased by 1.6%, driven by lending volume growth particularly in PNG and Fiji. This was offset by higher cost of funds and rate driven reduction in income from investment securities.

Fees and commission income increased by 4.2%, reflecting strong transactional volume growth across PNG and overseas branches and subsidiaries.

Foreign exchange earnings increased by 14.7% compared to the prior period, driven by improved currency flows predominantly in overseas branches.

Net insurance operating income increased by 92.2%, driven by lower claims experience and higher investment income from improved performance of investment portfolio in particular those in the tourism sector.

Comments on individual categories when compared to the previous corresponding period are:

Staff costs increased by 11.7%, driven by annual performance based salary adjustments, together with the need to increase staff numbers in Retail and Operations to support pre and post go-live efforts of a new core banking system.

Depreciation expenses increased by 4.4%, due to amortisation of the first full period of the new core banking system.

Computing expenses increased by 36.4% against the previous corresponding period, mainly due to on-going investment in technology to support the new core banking system and enhance the Banks' digital capability.

Premises and equipment expense increased by 10.7%, mainly driven by an expansion of the Retail branch network and overall increase in property maintenance costs.
