

Treasury Bills (T-Bills) Results

'364 days' successful bid¹ rate dropped to 67% while it's W.A.R² surged to 8.30%'

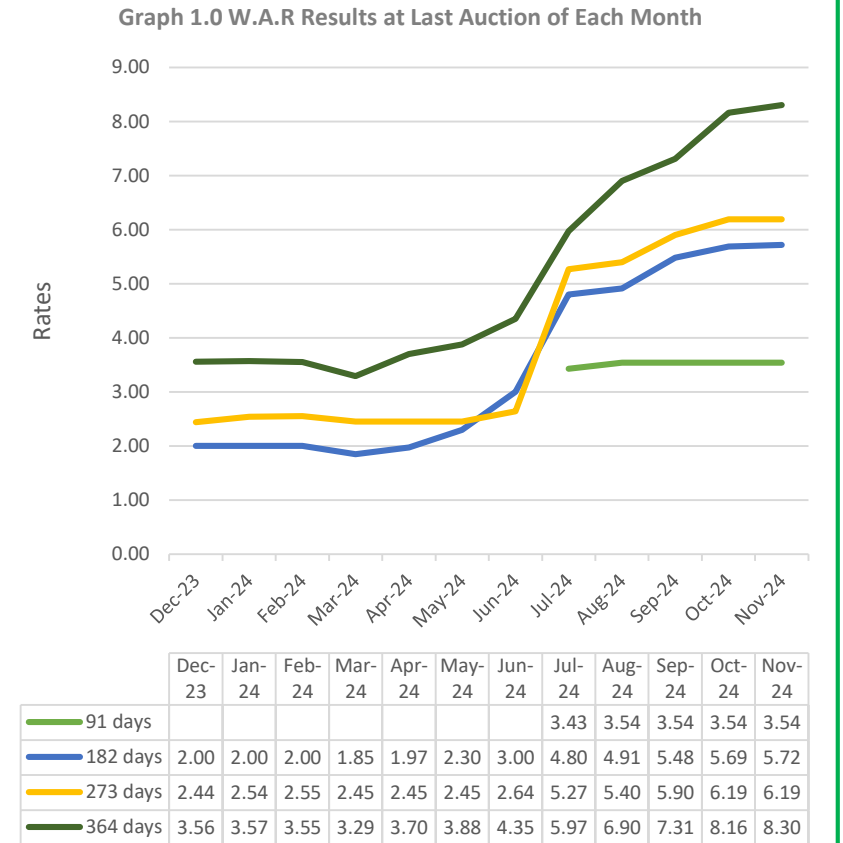

- T-Bills are a short term debt strategy of the government.
- The 364 day's W.A.R continues to reach new yearly highs each week. This week's auction recorded its W.A.R. at 8.30%, up 14 bps³. The result marks the 13th consecutive week the W.A.R of the tenor has increased.
- Despite the increase in 364 days' W.A.R, the market continues to stamp its authority by rejecting excessive bids that fall outside of its acceptable bid range as seen in the 364 days tenor successful bid rate dropping to 67% this week from floating between 80-90% in the last 6 auctions.
- The 273 day's W.AR received nil demand (or bids) this week following weaker appetite shown by investors on the tenor over the last fortnight were only K2.000m and K4.000m were demanded.
- The 182 days tenor resume the rise in its W.A.R again this week by 3 bps to 5.72% after remaining flat last week at 5.69%. The tenor maintained its impressive 100% successful bid rate for the fourth time in a row now.
- W.A.Rs for all tenors are expected to be on the ascending trend in the coming auctions given the tight monetary policy stance spearheaded by the Central Bank and the continuous appetite of the government to raise additional capital where necessary in the T-bills market to fund its budget.
- As at the results of this week's auction, the total successful bids awarded year-to-date is less by K-1,213.010m compared to the total amount offered.

Treasury Bonds (Government Inscribed Stock - GIS)

'GIS now issued on weekly basis; Fifth weekly GIS conducted this week'.

- Government Inscribed Stocks (GIS) are a long term debt strategy utilized by the government to finance the deficit budget – The tentative GIS issuance date for 2024 is given in Table 2.
- Despite this week's auction being undersubscribed by K53.000m, W.A.Rs for all tradable tenors of the week i.e., 5, 6 and 7 years increased by 22 bps, 35 bps and 13 bps respectively to 9.75%, 9.55% and 9.87% when compared to last week's results.
- This week's auction result brings the total amount of successful GIS bids awarded to date being to be less by K2,089.370m compared to total amount offered to date.
- Next week's GIS auction invitations have been released by the Central Bank and will be disseminated to clients today. A total of K150.000m is on offer for next week across 5, 6, 7, 8, 9 and 10 year bonds (GIS).
- W.A.Rs are expected to trend higher in the coming auctions given the tight monetary policy stance and the need for the market to raise additional capital to finance govt's annual expenditures.

Fix Rate Full Allotment Auction (FRFA) & Financial Institution Term Deposit Rates

'7-Day FRFA CBB W.A.R remain unchanged at 4%'

- Term deposit rates for all tenors remained unchanged for all issuers except for Westpac– refer Table 4.
- The Central Bank continues to strengthen the monetary policy operational framework by intensifying efforts to mop up excess liquidity and adopt more effective short-term liquidity management instruments. The introduction of 7-Day FRFA Central Bank Bill (CBB) exclusively to authorized deposit takers (ADI) in commercial banks, savings & loans societies and & finance companies is an example.
- The W.A.R remain unchanged at 4% with full allocation made on K1,128.000m total bids received in this auction.
- With K1,142.000m total CBB maturing this week, there is a net loss of K14.000m (or K1,128.000m - K1,142.000m) by the Central Bank to mop up access liquidity in the market.
- CBB's rate for the remaining auctions for this month is subject to the announcement of the Kina Facility Rate by the Central Bank. It is likely to remain at 4.00% to close of the month.
